JOCE CÍA. LTDA. · SINCE 1996

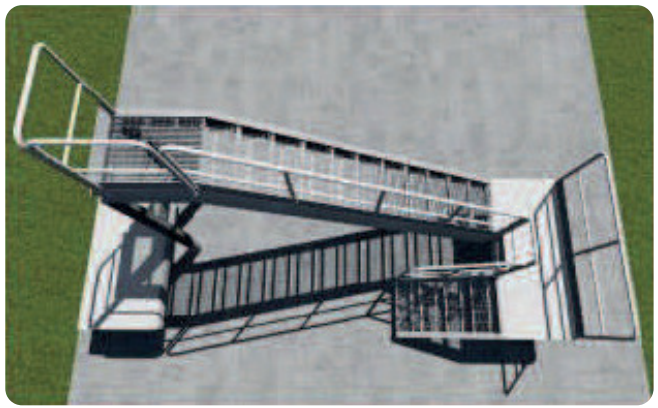

01 — THE COMPANY

About us

Joce opened its doors in 1996. Since then it has done steel carpentry and heavy hot-dip galvanized steel structures, and sells high-reliability fasteners (studs and bolts), pressure pipe and black and stainless steel fittings, schedule 40, 80 and 160. We offer our technology, experience and commitment to help carry out your projects.

02 — OUR PHILOSOPHY

Mission, vision and values

Mission

To provide our clients with tools, machinery and materials of excellent quality, with the most competitive prices, punctuality and responsibility in delivery, so as to be the best option in the market through the full commitment of our team.

Vision

To be an indispensable company in every area of construction and production, with the highest standards and quality certifications required nationally and internationally, focused on meeting our clients' needs through personalized, guaranteed service.

OUR VALUES

Integrity
Being honest with ourselves and with others.

Order
Work is done in an orderly, clean way.

Punctuality
We keep to our schedules and do things on time.

Sense of urgency
We act quickly on situations that cannot wait and must be solved as soon as possible.

WORKSHOP Steel structure fabrication at the plant.

03 — ROUND TAPERED POLES

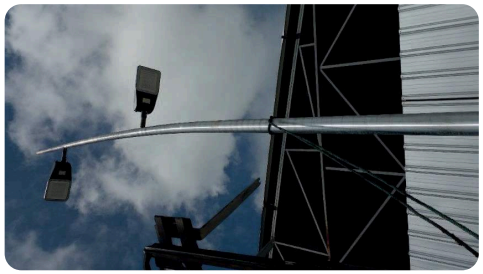

Lighting poles

Joce Cía. Ltda. specializes in round tapered poles made from a single steel section joined lengthwise by submerged arc welding (SAW). GMAW is used for supplementary welds. Taller poles are custom designed.

STEEL **ASTM A36 and ASTM A572**	WELDING **Longitudinal SAW + GMAW**
THICKNESSES **3, 4, 5 and 6 mm**	HEIGHT **2 to 12 m in a single piece**
Ø OUTSIDE AT TOP **60 to 114 mm**	MAX. Ø OUTSIDE AT BASE **258 mm**
STANDARD TAPER **12 mm per meter**	FINISH **Hot-dip galvanized ASTM A123 + electrostatic paint**

04 — VARIANTS

Tapered pole models

All models include their access door

PCR-BS Round tapered pole with bent arm

PCR-BCS · **BCD** Round tapered pole with curved bent arm

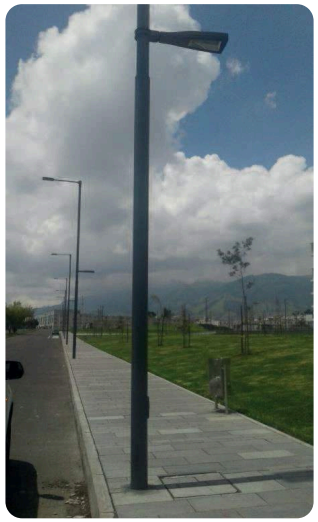

DOORS Access door detail

05 — TUBULAR POLES

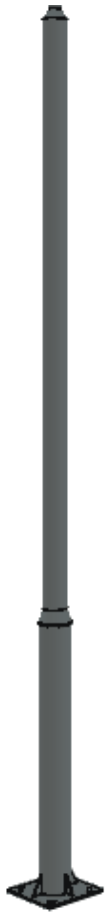

Tubular poles

Joce Cía. Ltda. makes tubular poles in one, two or three sections to specification, using steel pipe joined crosswise with plates and GMAW welding.

STEEL **ASTM A36**	SECTIONS **1, 2 or 3**
THICKNESSES **3, 4 and 5 mm**	HEIGHT **2 to 12 m**
DIAMETERS **2" to 6" or larger**	JOINT **Plates with GMAW welding**
FINISH **Hot-dip galvanized ASTM A123 + electrostatic paint**	

06 — POLYGONAL POLES

Polygonal poles

Joce Cía. Ltda. makes 8- and 12-sided polygonal poles in a single steel section up to 12 meters, and in two sections joined by a slip joint up to 24 meters. They are joined lengthwise by submerged arc welding (SAW); GMAW is used for supplementary welds.

STEEL **ASTM A36 and ASTM A572**	SECTION **8- or 12-sided polygon**
HEIGHT **Up to 12 m in one section; up to 24 m in two**	SECTION JOINT **Slip joint**
WELDING **Longitudinal SAW + GMAW**	THICKNESSES **4, 5 and 6 mm**
CIRCUMSCRIBED Ø AT TOP **100 to 200 mm**	MAX. CIRCUMSCRIBED Ø AT BASE **350 mm**
FINISH **Hot-dip galvanized ASTM A123 + electrostatic paint**	

POLYGONAL Polygonal poles with base plate.

07 — SIGNAGE AND SECURITY

Signage and CCTV poles

08 — FOUNDATION ANCHORS

Anchor bolt cages

Joce Cía. Ltda. makes anchor bolt cages with threaded rods, from 3 to 24 bolts. If required, the rods are tied with 8 mm diameter AS42 steel rebar stirrups.

BOLTS PER CAGE **3 to 24**	DIAMETERS **5/8", 18 mm, 7/8", 1" and 1 1/4"**
STEEL **ASTM A36 · AISI 1018**	STIRRUPS **Rebar Ø 8 mm, AS42**
ELECTRO-GALVANIZED **ASTM B633**	HOT-DIP GALVANIZED **ASTM A153**

FABRICATION Anchor bolt cage

SITE Anchor bolt cage installed on site

09 — SHIPPING

Protection and care

Our poles are protected and wrapped before shipping to preserve the galvanized and painted finish during transport and storage on site.

PACKING Wrapped poles ready for shipping.
